Exploring Memphis

Day 1- If you like good food, entertainment, the “King of Rock & Roll”, great accommodations, then this tour is for you. To top it off, we will tour **St. Jude's Children's Research Hospital**, and that is exactly where we start our tour in Memphis with a guided tour of the hospital. We know many of you from our area support the hospital on a regular basis. After the St. Jude's tour, we check into the beautiful downtown Hampton Inn in the Peabody Plaza area, the rest of the evening is free to explore and have dinner on your own along famous **Beale Street**, just a half a block from the Hampton Inn.

Day 2- After an included breakfast, you may want to check out some of the amenities of the hotel before we board our deluxe motor coach and travel to **Graceland**, the home and grounds of the “**King of Rock and Roll,**” **Elvis Presley**. The tour includes the Mansion, Trophy Building, Racquetball Building, and Meditation Garden. Also included is Elvis' two custom jet planes, the new News Making Story Exhibit, Elvis' Automobile Museum, the Fashion King Exhibit, the King and Pop Culture Exhibit, and the '68 Special Exhibit. Lunch is on your own at the Graceland Plaza on the grounds. On our way home, we have time to reflect on the great time we've had in this great American City, rich in history, music, good food, and of course, St. Jude's Children's Research Hospital. **(B)**

For some of our customers who are uncertain of the economy or world situation and want to stay closer to home, we encourage you to check out all of the great tours in this catalog for under \$1,000.00 and those that are closer to home .
